We strongly advise you to register for the meeting before March 31st, 2014. A reduced early registration fee will apply to this deadline.

The conference will bring together all those interested in bioethics and related fields, including multidisciplinary international groups of experts, academicians, researchers, key opinion leaders as well as professionals from the healthcare field, medical education, health policy, philosophy, law and others. The 12WCB will feature the latest progress in Bioethics.

The meeting program will present lectures by top experts from around the globe, symposia sessions, oral and poster presentations, and much more! In addition, **plenary sessions with key note speakers** will address contemporary important issues in Bioethics. The scientific program is being designed by a multidisciplinary international committee of world-renowned experts.
